

Hazard Assessment Form	
Name:	Date: 12-01-2025
Department: Stud Planer	Workstation: Planer Spray Booth/Conex
Task: Spray Booth/Conex filter change	
Description: Filter changes require the employee to wear latex gloves and safety glasses. To change the filter, you need to turn off the valve that supplies the filter with solution. Next, open the valve to drain the filter housing of solution. Remove the cap to release the pressure. The old filter can now be drained and rinsed, and the new filter can be installed. Install the cover and close the drain valve and open the supply valve. When adding defoamer use ½ cup defoamer solution to the 55 gallon drum and fill with water.	
Hazards • Splash • Spills • Exposures	
Chemicals • See MSDS/SDS located in the cabinet inside the Conex	
PPE • Safety Glasses • Latex Gloves
